

DAILY NEVADA STATE JOURNAL

C. C. Powning, Editor & Proprietor

FRIDAY.....OCTOBER 20, 1882.

REPUBLICAN STATE TICKET.

For GOVERNOR,

E. STROTHER,

Of Storey.

For LIEUTENANT GOVERNOR,

CHAS. E. LAUGHTON,

Of Ormsby.

For MEMBER OF CONGRESS,

C. C. POWNING,

Of Washoe.

For JUDGE OF SUPREME COURT,

O. R. LEONARD,

Of Humboldt.

For STATE CONTROLLER,

J. F. HALLOCK,

Of Lincoln.

For STATE TREASURER,

GEO. TUFY,

Of Ormsby.

For SECRETARY OF STATE,

J. M. DORMER,

Of Esmeralda.

For ATTORNEY GENERAL,

W. H. DAVENPORT,

Of Eureka.

For SURVEYOR GENERAL,

CHAS. S. PREBLE,

Of Washoe.

For SUPREME COURT CLERK,

CHAS. F. BICKNELL,

Of Ormsby.

For SUPT. OF PUBLIC INSTRUCTION,

C. S. YOUNG,

Of Storey.

For STATE PRINTER,

J. C. HARLOW,

Of Ormsby.

REPUBLICAN COUNTY TICKET.

State Senator,

F. N. MARKER,

Of Washoe.

Assembly,

C. S. VARIAN,

Of Reno.

W. E. PRICE,

Of Franktown.

H. L. FISH,

Of Reno.

District Judge,

W. M. BOARDMAN,

Of Reno.

Sheriff,

J. F. EMMETT,

Of Reno.

County Clerk,

P. B. COMSTOCK,

Of Reno.

Recorder,

T. F. LAYCOCK,

Of Reno.

Treasurer,

D. B. BOYD,

Of Reno.

Assessor,

ORLANDO EVANS,

Of Reno.

District Attorney,

J. F. ALEXANDER,

Of Reno.

Long Term Commissioner.

S. C. FOGUS,

Of Reno.

Short Term Commissioner,

G. W. SAWYER,

Justice of the Peace,

W. H. YOUNG,

Of Reno.

Constable.

R. NASH,

Of Reno.

Road Supervisor.

A. THOMPSON,

Of Reno.

School Trustee (long term),

F. R. WAGGONER,

Of Reno.

School Trustee (short term),

C. R. WICKES,

Of Reno.

OUR TICKET.

The Republican party in Washoe county never had a better or stronger ticket, if it be carefully dissected, than is offered for the suffrages of our people to-day; and this is especially true of our candidates for the Legislature. P. N. Marker, our candidate for State Senator, stands to-day foremost among the business men of this county; a position he has held uninterruptedly for more than twenty years. No public enterprise was ever undertaken in Washoe county that failed to receive the hearty support and substantial aid of P. N. Marker. Honest, upright and accommodating in every social and business transaction, in all these years, he has the confidence and respect of every citizen of the county, irrespective of party. No man in the county knows the wants of this people better than he, and no fitter man for the position could have been nominated. The Convention seems to have taken especial pains to see that every interest in the county was represented in selecting candidates for the Legislature. Fish represents the business and mercantile pursuits, Price the farming interests and Varian the law. There may have been, but we do not at this time call to mind the time, when a more fitting and able delegation was sent to the Legislature from this county, than the gentlemen just named.

As a lawyer, Mr. Varian has ranked among the leading practitioners in this State for years. Mr. Fish has filled important official positions in this county before, and always with credit to himself and to the entire satisfaction of his constituency. Mr. Price has had sufficient Legislative experience to enable him to be an active and useful member of that body. These gentlemen are entitled to the support of every Republican in the county, and they certainly will be triumphantly elected in November.

EDITORIAL NOTES.

Of late years there have been so many disastrous failures in the East, and so many men ruined in grain speculations that we hail with delight a recent decision in the Supreme Court of Wisconsin that all transactions where there is no intention that grain shall be received or delivered, but only on intention to pay the differences, must be legally considered as gambling transactions; and that a commission merchant who acts as agent in such transactions is guilty of gambling and has no remedy at law for any default or other act of bad faith on the part of the principal.

The return of Kelly to the Democratic fold in New York, and various other causes, make things look a little dubious for the Republican ticket in that State. The only ray of hope that we can see is the fact that the two large "independent" papers in the city, the Sun and the Herald, favor the Democratic ticket. If the Herald should suddenly flop over to the Republicans before the election, an event that is as likely to occur as not, the Republican ticket would be lost beyond remedy.

The English Government is entitled to credit for at least one honorable act in connection with Egyptian troubles, and that is in demanding a fair trial for Arabi Pasha. The London Times says that unless proper arrangements are made by the Egyptian authorities to procure a fair trial for Arabi Pasha and his fellow leaders, it is possible that the British Government will require that they be handed back into English custody.

All the California railroads have appeared before the Railroad Commissioners in that State and protested against the reduction of fares to four cents per mile, except the Central Pacific folks, who say it will increase their returns, and especially so on the Southern route.

Local Republicans candidate had an enthusiastic meeting in Virginia City Wednesday night at which all the candidates put in an appearance and made speeches. Judge Atkinson was among the speakers and enlivened the boys with one of his old fashioned characteristic war-whoops.

There was a meeting in Boston Wednesday night of Republicans favorable to the election of Genl. Benj. F. Butler. The meeting was fairly attended, and a committee was appointed to formulate an address to Republicans throughout the State. Butler has better chance this time to win the long coveted prize than ever before.

The political campaign in Washoe, up to the present writing, has been a remarkably quiet one; yet the candidates themselves, nor has the County Central Committee been idle. A good deal of effective work has been done in the way of getting things in proper shape for action.

Among the most interesting items of news from Washington is a report from the Signal Service Bureau predicting fair weather for the Pacific Coast.

THE FLOWER CITY FUREUR.

The Commotion Caused by the Statement of a Physician.

An unusual article from the Rochester, N. Y., Democrat and Chronicle, was published in this paper recently and has been the subject of much conversation both in professional circles and on the street. Apparently it caused more commotion in Rochester, as the following from the same paper shows:

Dr. J. B. Hanion, who is well known not only in Rochester, but in nearly every part of America, sent an extended article to this paper a few days since which was duly published, detailing his remarkable experience and rescue from what seemed to be certain death. It would be impossible to enumerate the personal enquiries which have been made at our office as to the validity of the article, but they have been so numerous that further investigation of the subject was deemed an editorial necessity.

With this end in view a representative of this paper called on Dr. Hanion, at his residence on St. Paul street, when the following interview occurred: "That article of yours, Doctor, has created quite a whirlwind. Are the statements about the terrible condition you were in and the way you were rescued such as you can sustain?"

"Every one of them, and many additional ones. Few people ever get so near the grave as I did, and then return, and I am not surprised that the public think it marvelous. It is marvelous."

"How in the world did you, a physician, come to be brought so low?"

"By neglecting the first and most simple symptoms. I did not think I was sick. It is true I had frequent headaches; felt tired most of the time; could eat nothing one day and was ravenous the next; felt dull indefinite pains and my stomach was out of order, but I did not think it meant anything serious."

"But have these common ailments anything to do with the fearful Bright's disease which took so firm a hold on you?"

"Anything? Why, they are the sure indications of the first stages of that dreadful malady. The fact is, few people know or realize what ails them, and I am sorry to say that too few physicians do either."

"That is a strange statement, Doctor."

"But it is a true one. The medical profession have been treating symptoms instead of diseases for years, and it is high time it ceased. We doctors have been clipping off the twigs when we should strike at the root. The symptoms I have just mentioned or any unusual action or irritation of the water channels indicate the approach of Bright's disease even more than a cough announces the coming of consumption. We do not treat the cough, but try to help the lungs. We should not waste our time trying to relieve the headache, stomach, pains about the body or other symptoms, but go directly to the kidneys, the source of most of these ailments."

The reporter left Mr. Warner, much impressed with the earnestness and sincerity of his statements and next paid a visit to Dr. S. A. Lattimore at his residence on Prince street. Dr. Lattimore, although busily engaged upon some matters connected with the State Board of Health, of which he is one of the analysts, courteously answered the questions that were propounded him:

"Did you make a chemical analysis of the case of Mr. H. H. Warner some three years ago, Doctor?"

"Yes sir."

"What did this analysis show you?"

"The presence of albumen and tube casts in great abundance."

"And what did the symptoms indicate?"

"A serious disease of the kidneys."

"Did you think Mr. Warner would recover?"

"No, sir. I did not think it possible. It was seldom, indeed, that so pronounced a case had, up to that time, ever been cured."

"Do you know anything about the remedy which cured him?"

"Yes, I have chemically analyzed it and upon critical examination, find it entirely free from any poisonous or deleterious substances."

We publish the foregoing statements in view of the commotion which the publicity of Dr. Hanion's article has caused and to meet the protestations which have been made. The standing of Dr. Hanion, Mr. Warner and Dr. Lattimore in the community is beyond question and the statements they make, cannot for a moment be doubted. They conclusively show that Bright's disease of the kidneys is one of the most deceptive and dangerous of all diseases, that it is exceedingly common, alarmingly increasing and that it can be cured.

As he watched the results his countenance suddenly changed—his color and command both left him, and in a trembling voice he said: "Gentlemen, I have made a painful discovery; I have Bright's disease of the kidneys, and in less than a year he was dead."

"You believe then that it has no symptoms of its own and is frequently unknown even by the person who is afflicted with it?"

"It has no symptoms of its own and very often none at all. Usually no two people have the same symptoms, and frequently death is the first symptom. The slightest indications of any kidney difficulty should be enough to strike terror to any one. I know what I am talking about, for I have been through all the stages of kidney disease."

"You know of Dr. Hanion's case?"

"Yes, I have both read and heard of it."

"It is very wonderful, is it not?"

"A very prominent case but no more so than many others that have come to my notice as having been cured by the same means."

"You have believed then that Bright's disease can be cured?"

"I know it can. I know it from experience of hundreds of prominent persons who were given up to die by both their physicians and friends."

"You speak of your own experience, what was it?"

"A fearful one. I had felt languid and unfitted for business for years. But I did not know what ailed me. When, however, I found it was kidney difficulty I thought there was little hope and so did the doctors. I have since learned that one of the physicians of this city pointed me out to a gentleman on the street one day saying: 'There goes a man who will be dead within a year.' I believe his words would have proven true if I had not fortunately secured and used the remedy now known as Warner's Safe Kidney and Liver Cure."

"And this caused you to manufacture it?"

"No it caused me to investigate. I went to the principal cities, saw physicians prescribing and using it and I therefore determined, as a duty I owed to humanity and the suffering, to bring it within their reach and now it is known in every part of America, is sold in every drug store and has become a household necessity."

The reporter left Mr. Warner, much impressed with the earnestness and sincerity of his statements and next paid a visit to Dr. S. A. Lattimore at his residence on Prince street. Dr. Lattimore, although busily engaged upon some matters connected with the State Board of Health, of which he is one of the analysts, courteously answered the questions that were propounded him:

"Did you make a chemical analysis of the case of Mr. H. H. Warner some three years ago, Doctor?"

"Yes sir."

"What did this analysis show you?"

"The presence of albumen and tube casts in great abundance."

"And what did the symptoms indicate?"

"A serious disease of the kidneys."

"Did you think Mr. Warner would recover?"

"No, sir. I did not think it possible. It was seldom,

DAILY NEVADA STATE JOURNAL

FRIDAY OCTOBER 20, 1882.

PRICE OF DAILY JOURNAL,
12 1/2 CENTS PER WEEK.

TOWN AND COUNTY.

BREVITIES.

J. F. Smith, of Elko and Miss Dolan are registered at the Lake House.

Senator J. P. Jones accompanied by Sept. Sam Jane went through yesterday morning to the Comstock.

C. F. Brant, formerly of Dayton, Nev., but now of Butte City, Montana, passed through on his way home yesterday.

John Hogan says he will assume the duties of night watchman as soon as the citizens of Reno will pay him enough for his services.

D. W. Balch, President of the N. & O. R. R. Co., returned from S. F. yesterday and will leave for New York on important business in a few days.

There are already thirteen candidates for the office of Constable at Truckee, with more getting themselves in training for the fight. There must be money in the Constable's office up there.

F. H. McAllister, wife and family late of Downeyville Cal., have arrived in town with the intention of settling permanently. They will prove a valuable acquisition to Reno's population.

Remember the first business in order is to get your name on the registry list. That faithfully done, your next business will be to exercise the privilege of every good citizen and vote the Republican ticket straight.

The many friends of Captain Matt O'neill will be glad to know that at last accounts, he was considered out of danger. He was resting comfortably, and there was every reason to hope for his ultimate recovery.

James Alli was made a citizen of this great and glorious republic yesterday, much to the disgust of Queen Victoria, who stood in the ante-room, figuratively speaking, bathed in tears and vehemently blowing her nose over him.

If there is a Republican in the county who wishes to be disfranchised all he has to do is to keep his name off the registry list. The books will close at six o'clock this evening, and if you wish to vote see that your name is on the list in proper time.

If any voter thinks he can get his name on the registry list after six o'clock to night he is mistaken. The law is mandatory, and requires the agent to close his books at six, therefore, if you fail to get there on time and are left, curse yourself and not the agents, or the law.

The Republican says the railroad company has discharged two conductors on every division between Salt Lake and San Francisco, within the past week. The Truckee division gets a double bonus, as three of the oldest men on the division have had their heads taken off. M. W. Seymour, Ben Sargent and E. W. Brasher are the unfortunate Truckeeites whose punches have been called in.

C. A. Merrill, or "Genial Charley" as he is called, is down from his new town, Belfast, in Lassen county. Mr. Merrill is associated with P. N. Marker in the great enterprise of tapping Eagle Lake, besides being engaged in other schemes of great future advantage to Lassen. His friends here have been busy interviewing him since his arrival. He will remain over in Reno a few days, unless he is compelled to fly in order to avoid having his arms shaken off.

Heavy Storms.

The Sierra Valley Leader says that the heavy storm of the past week caused havoc among the herds of the dairymen in the mountains. Stock has been scattered far and wide, many perishing from hunger and exposure. Everyone was caught unawares and had no time to collect their cattle and to provide a shelter. It is reported that three feet of snow fell between Webber and Meadow lakes, and ranchers in the vicinity have suffered severely.

Water Shut off.

Night before last there was weeping, wailing and gnashing of teeth throughout town, especially among housekeepers. The cause was the sudden turning off of the water without adequate warning. In several households where thirst was raging, loving wives were compelled in the absence of water to force their husbands to swallow stronger beverages to save their perishing dears from drought.

Young Men's Republican Club. There will be a business meeting of the Young Men's Republican Club at Reform Club Hall at 8 o'clock on Monday evening, Oct. 23. Business of the greatest importance and much interest will come before the Club, and all members are urged to be present.

G. W. CONKLING, Jr., President. W. S. LARK, Secretary.

A Pardonable Mistake.

"Ticket Sir," called out the conductor on the V. & T. train yesterday to a Carson gentleman returning homeward. The young man addressed hoisted anchor and handed over the pasteboard which was only punctured. As the conductor punched the ticket, he looked around and inquired "where's your friend?" "What friend? I have no friend." But where's the party occupying the seat with you? "I'm alone" said the capitalist, apparently much puzzled at being thus questioned. "Then what in the name of the Reagan Bill are you doing with two valises?" responded the irate conductor. "Two valises! why I haven't got even one!" replied the astonished Carsonite, at the same time moving his feet off the seats with much exertion.

"Oh excuse me, excuse me," apologized the conductor and as he passed out of the cars he was heard to remark "the biggest I ever saw, sure! No wonder they found those tracks at the State Prison."

Washoe County's Wealth.

The assessment roll of Washoe county, for the fiscal year 1882, has been delivered to Treasurer Boyd by the County Auditor, and contains the following details that will prove interesting to taxpayers:

Total value of real estate \$2,723,155

Personal property 954,550

Total \$3,677,705

State proportion of tax, (90c

on \$100) \$32,099.35

County's (\$1.35 on \$100) 49,649.02

Total poll tax 3,372.00

Reno incorporation tax 2,367.09

Reno School Dis. redemp tax 3,078.40

Collected by Assessor on personal property 5,869.68

On poll tax 1,964.00

Total taxes \$99,390.34

In addition to total valuation as charged in the roll, the Assessor has besides levied on personal property to the extent of \$231,670, making the gross amount of personal property and real estate taxed during the last fiscal year, \$3,900,375.

Third Class Emigrants.

A special train of third class emigrants passed east yesterday afternoon at 2 o'clock. This is a new departure in railroad travel and has been hailed with delight by a majority of the traveling public. As everyone knows who has traveled on an ordinary emigrant train, the surroundings and accommodations are not by any means enjoyable. There are numbers of refused, intelligent people on the coast, with but small means, who are deterred for this reason from paying a visit to the old folks at home. This has led the railroad company to organize the special or third class emigrant trains. Provided sixty persons engage a car it will be set apart for their exclusive use and none but the charterers allowed to remain in it. As a result nearly three hundred people in five chartered cars passed through as the first fruit of the new departure.

Terrific Slaughter of Deer.

Some idea of the great slaughter of deer which annually takes place in California, Nevada and Oregon may be gained from the trade statistics of the hide dealers. One Front street export house in San Francisco has a pile containing 8,000 deer-skins in its warehouse. It handles annually over 75,000 skins, and estimates the annual number of deer killed at 200,000. The largest portion of the skins come from Northwestern Nevada and Southeastern Oregon, where deer are still abundant. As a rule in this State deer are slain for their food as well as their hide value, while in Oregon and California large numbers of the animals are left to rot, the skins being all that is desired. It is a shame that so much valuable food should be wantonly wasted, especially now that deer are becoming scarcer every year.

Cure for Blackleg.

The Modoc Independent says that Peter Ivory, of Clover Swale, who is an experienced cattle raiser, says he has at remedy which will cure the blackleg in cattle every time. It is as follows: When the animal is first taken it will exhibit lameness in some one of its legs. With a sharp knife open the member between the knee and the hoof, where will be found a lump or sack filled with a white, watery substance. Squeeze all this out, then fill the opening with salt and pepper, and bind the limb up with a cloth. This is all that is required, and Mr. Ivory vouches for its good effects. The remedy is certainly cheap and simple, and is worthy of a trial.

The National Rally.

H. H. Beck, who has championed the cause of the National party in Washoe county. Made a speech at the Nevada Theater last night. The theater was well filled and most of the audience remained to the close of his speech which lasted two hours.

The ladies all think the Royal Sewing Machines for sale by Osburn & Shoemaker are just perfection. They turn either way and sew straight along—run easy and noiseless. Go and see them by all means.

EARTHQUAKES.

Their Causes, & (and) the Benefit of Comstock Observations.

For many years past it has been noticed that while everybody and every structure on the Comstock's surface were shaken and rocked to and fro in the most violent manner, the miners working underneath the earth's surface scarcely experienced a tremor of the ground surrounding them. Yet had the same effect been produced underground that was so stoutly felt on the surface, many miners would have been crushed in living tombs. When it is recollect that there are thousands of feet of narrow drifts oftentimes between the working miners and their base of safety, the shaft, the possibility of an earthquake caving down the drift in many places is terrible to contemplate. However, such an event has never occurred during the shocks that have several times visited the State. When the great number of dangers to which our miners are exposed are reckoned up, it pleases every friend of the stalwart underground toiler to know that the terrors of the earthquake do not recoil on him. The following article from the London Times will be useful in giving the readers of the JOURNAL the latest scientific idea as to the cause of the "Trembler," published by the committee appointed some time ago to measure the lunar disturbance of gravity, and also by G. Darwin, which contains some of the statements new to the public: "It is considered proved by the men of science that the crust of the earth bends under weights imposed on it till, when the barometer rises an inch over a land area like that of Australia, the increased load of air sinks the entire continent two or three inches below the normal level. The land actually sinks and rises under the pressure of the mass of water thrown upon it by the tides, the maximum of rise and fall on the Asiatic seaboard reaching five inches. This effect is felt at the bottom of the deepest mine. Although the effect decreases in intensity according to the square of the distance towards the earth's centre.

It follows that the crust of the earth must be of exceeding tenacity, exceeding as a minimum that of granite; and its swayings may be the causes of phenomena hitherto quite unexplained, as, for example, the relation between storm and earthquake. So universal, frequent, and unavoidable are these disturbances that the inquiry into the lunar disturbance of gravity has been given up. No depth can be found at which a recording instrument can be placed so as to escape their effect. The round earth pants, in fact, like a breathing being, under the changes always going on above her."

A Fine Telephone.

Frank Bell has just completed a fine substantial telephone line from the Mexican Mill on the Carson river up to their dam a distance of five miles. It will be used for the purpose of turning the water on and off in the race, and is a fine piece of telephonic engineering.

Flashes.

C. Hinger, of Detroit, was murdered at Panama, Monday night.

The Republicans of the Fourteenth New York District have nominated Henry R. Low for Congress.

Charles Rhodes has been nominated for Congress by the Democrats of the twenty-fourth New York District.

The Democrats of the Twenty-fifth New York District have nominated Alexander P. Davis for Congress.

Ninety-five Mormon Elders left Salt Lake yesterday for missionary work in the Southern States and Europe.

The German ship Constantia and steamer City of Antwerp collided off the English coast, and both vessels sank.

The Tammany Democrats of the Eleventh New York District have re-nominated Roswell P. Flower for Congress.

Three men at Baltimore, while fighting in the third story of a house, were precipitated to the ground, one being killed and the others badly hurt.

The National Rally.

H. H. Beck, who has championed the cause of the National party in Washoe county. Made a speech at the Nevada Theater last night. The theater was well filled and most of the audience remained to the close of his speech which lasted two hours.

The ladies all think the Royal Sewing

Machines for sale by Osburn & Shoemaker are just perfection. They turn either way and sew straight along—run easy and noiseless. Go and see them by all means.

50 CTS. A WEEK.

All classes of legitimate advertisements not exceeding six lines inserted in this column for 50 Cents per week.

Honey Lake Apples.

We are receiving two thousand boxes of the very finest Honey Lake apples, which we sell both at wholesale and retail at the very lowest prices. Give us a call, Oct. 20th.

HALL & PAINTER.

Dancing School.

Mrs. Alt will open her dancing school at Kimball's Hall next Wednesday, Oct. 25th. The best of music has been secured. Ladies' class Wednesday afternoon.

Oct. 19-20th.

Impounded.

The following animals have been impounded by Officer Avery. Two bay mares with white stripe in the face and branded with either a square or an H, together with one sucking colt. The owner can redeem the same by calling at the Constable's office and paying charges. 17-18.

Furniture.

Can be found at Noocham's, Virginia street, near the bridge. The stock of a dealer closing business to be sold to pay his debts. Will be offered for sixty days, and if not sold may be sent below. Call and examine the goods. Oct. 12-14.

For Rent.

A dwelling house with three rooms, hard finished, on east 5th street, good well of water and convenient outhouses. \$10 a month. Enquire at this office.

Oct. 12-14.

Girl Wanted.

For general house-work in small family. Inquire of I. B. Marshall, Reno.

Oct. 12-14.

Reopened.

The Ohio House has been reopened under the management of G. W. Merabon. Meals, 25 cents; lodgings, 25 cents. Finest wines, liquors and cigars at all times.

Aug. 20-21.

Wanted.

A woman to do cooking on a ranch. For Sale—Pasture for a large number of cattle or sheep.

Oct. 12-14.

Notice.

Watson, the Shoemaker, is located two doors below Neale's, on Virginia street. Persons seen removing some of his goods will please return them before he sends the Constable.

Oct. 12-14.

Capital Saloon.

The best of liquors and cigars can be found at the Capital Saloon. Well furnished private rooms for cards or political convivialities. The proprietor, H. F. Hoy, will be on hand when the bell taps.

Aug. 20-21.

Hardware, Crockery, Etc.

Knowles & Brainbridge, Commercial Row, Reno, have a splendid stock of hardware, agricultural implements, crockery, hardware, etc., etc. Orders from the country promptly attended to. Address.

Oct. 12-14.

Ranch For Sale in Churchill Co.

I have 430 acres of land for sale. A fine wheat and barley country, alfalfa does well here; fine stock and dairy section. Property will be sold cheap. Address, JACKSON FERGUSON, Apr. 23-24.

St. Clair, Churchill Co., Nev.

For Sale.

\$1,000 will buy a nice house and lot on Second street. Enquire at the JOURNAL Office.

Oct. 12-14.

New Barber Shop.

Wm. Gales, champion barber of Reno, has cleanest towels and shaves to boast of in town. Excellent assistant. Also teacher of banjo and guitar.

Oct. 12-14.

Baker's Upright Pianos.

I am the general agent for Nevada for the popular Baker upright piano—piano that never gets out of repair or tune, having the Elliot patent tuning slide. Guaranteed for all time. Terms very reasonable.

Oct. 12-14.

C. J. BROOKINS.

The best of liquors and cigars can be found at Charley's. Everything is in the finest shape and cleanliness is always the order of the house. Give him a call.
